

Cold Case Love

Rihanna

1st Verse:

On my roof

Dark and I'm burning a rope

I don't need proof

I'm torn apart and you know

What you did to me was a crime

Cold Case Love

And I let you reach me one more time

But that's enoughHook:

Your love was breaking the law

But I needed a witness

So wake me up when it's over

It don't make any difference

Will it ever be solved

Or am I taking the fall

Truth was there all along

Tell me how did we miss itChorus:

We opened up a cold case love

And it got the best of us

And now prints, pictures & white outlines

Are all that's left at the scene of a crime

Of a cold case love, oh-oh, oh-oh ohh2nd Verse:

Should've investigated

But love blinded eyes

Couldn't see (no)

And then I tried to cage it

But your love ain't the kind you can keep

Release me now cause I did my time

Of this cold case love

My heart's no longer cold & confined

I've had enough, uh oh ohhhHook:

Your love was breaking the law

But I needed a witness

So wake me up when it's over

It don't make any difference

Will it ever be solved

Or am I taking the fall

Truth was there all along

Tell me how did we miss itChorus:

We opened up a cold case love
And it got the best of us
And now prints, pictures & white outlines
Are all that's left at the scene of a crime
Of a cold case love, uh oh oh ohhhBridge:
We lost our way
Took this too far
And I'll never find the pieces of my heart
We've lost enough
Looking for a truth
That was here all along, ohhChorus:
Cold case love
And it got the best of us
And now prints, pictures & white outlines
Are all that's left at the scene of a crime
Of a cold case loveWe opened up a cold case love
And it got the best of us
And now prints, pictures & white outlines
Are all that's left at the scene of a crime
Of a cold case love, love(Music fades out)
