

Coltrane Free

Son Volt

She'll take you there and back again
Coltrane free as she finds her way
She doesn't waste the time that she's given
She knows what she wants
Fashion needs to but she doesn't want to talk about it
She takes a view upside down
She makes the world sing and shout, harmony
She doesn't waste the time that she's given
She knows what she wants
Fashion needs to but she doesn't wanna talk about it
Here she comes, she owns the world
Modern plans to unfurl
Here she comes, she owns the world
Takes a cue from another century
Looking back to find contemporary
She doesn't waste the time that she's given
She knows what she wants
Fashion needs to but she doesn't want to talk about it
Here she comes, she owns the world
Modern plans to unfurl
Here she comes, she owns the world
Here she comes, she owns the world
Modern plans to unfurl
Here she comes, she owns the world
Here she comes, she owns the world
