

Generation Who

The Jude

The American Dream
You can't afford it
Your war machine
We don't want it
Your celebrity theme is such a hit
Faceless, nameless, plastic
We're Generation I
We're Generation Now
We're Generation Who
The American romance
Proof of dementia
An anarchist riot
Take your hate to obsession
Contempt for the planet
So you leave it in our hands
Appeal to a world gone mad
We're Generation I
We're Generation Now
We're Generation Who
The time is now
For reinvention
Devastation of power
Now a broken obsession
Live with the fallout
Look for salvation
You need us to lead a nation
We're Generation Who
We're Generation Who
We're Generation Who
