DJ

Amanda Blank

I could be dancing
I could be dancing all night if you'd play
I would be dancing
I would be doing alright if you'd play
I need something I can dance to
On and on, spin my world like a record now
On and on, give me something I can dance to
Something I can count on
On and on, spin my world like a record now
On and on, I need something I can dance to
And every night I pray, you'd let me
Can you hear me now, DJ? You're gone tomorrow but
Just let the music play, just let me
Just let the music play, let the music play
I could be dancing
I could be dancing all night if you'd play
I would be dancing
I would be doing alright if you'd play
I need something I can turn to now and then
Take me out, out now on and on
I need something I can turn to
Something I can count in day and night
On and on like a record now, out now
I need something I can dance to
And every night I pray, you'd let me
Can you hear me now, DJ? You're gone tomorrow but
Just let the music play, just let me
Just let the music play, let the music play
I could be dancing
I could be dancing all night if you'd play
I would be dancing
I would be doing alright if you'd play
If you'd play, if you'd play
I could be dancing
I could be dancing all night if you'd play
I would be dancing
I would be doing alright if you'd, you'd, you'd, you'd play
If you'd play
I would be dancing

I would be doing alright if you'd play
Just let the music play, let the music play
Just let the music play all night, alright
Just let the music play, let the music play all night
let the music play all night
just let the music play, let the music play, alright
Just let the music play, DJ
