Keep the Suffering Down

Spark Gap

This dancy song's 27,
For instance the deviants already,
Showed the distance with insistence,
We're your rope now.Don't tell me that you're ready for,
I need a proof, a loaded 44.
Chased by the norm, now we'll be chasing,
Each and every one of you.Going down on the floor, going down on the floor is easy.
Always heading for more yeah, always heading more misery.I'm holding on, and on, and on, and on.
You and I will always do.
They keep denying, deny, deny, it's so.
Keep the suffering down.Come on, come on, let's go it's so.
Keep the volume up.
Is it the time for distant galaxies,
To collapse like drop dead bodies ?
Synapses in collision, Ooh I need a vision.Going down on the floor, going down on the floor is easy.
Always heading for more yeah, always heading more misery.ChorusMy heavy metal heart, head hard as rock,
And my disco toes.Put the volume up, and the suffering down,
And the suffering down.
Keep the volume up, and the suffering down,
And the suffering down.ChorusCome on, come on, keep the volume up
