

# Come Touch Me

Bobby V

It's one of those nights, girl  
You know just what I need  
I don't have to spell it out  
You bring out the freak in me  
Ooh, something terrible  
I'm getting sweaty right now  
So please come touch me  
I need it now so do what you do  
And please me  
Kiss me right there baby, nice and slow  
The door will be unlocked girl  
There's no need for a key  
Just be looking real sexy  
Can't wait to feel your smooth skin  
Coco brown with pretty feet  
Ooh, you fulfill my needs  
How do you do that there, girl  
Somebody taught you well, girl  
You're just like a ball player  
You bounce it everywhere, girl  
Your game is so tight  
And you bless me every night  
With the magic that you do, that you do  
Baby do that thing  
Please come touch me,  
I need it now so do what you do  
And please me, yeah  
Kiss me right there baby, nice and slow  
Please come touch me  
I need it now so do what you do  
And please me  
Kiss me right there baby, nice and slow  
How do you do that there, girl  
Somebody taught you well, girl  
You're just like a ball player  
You bounce it everywhere, girl  
Your game is so tight  
And you bless me every night  
With the magic that you do, that you do

Baby do your thing  
Please come touch me  
I need it now so do what you do  
And please me  
Kiss me right there baby, nice and slow  
Please come touch me  
I need it now so do what you do  
And please me  
Kiss me right there baby, nice and slow  
Please come touch me  
I need it now so do what you do  
And please me  
Kiss me right there baby, nice and slow  
Touch me baby  
Baby, yeah, yeah, yeah  
Do your thing, do your thing  
Do what you want baby, yeah
