## You Don't Know Her Name

## **Maps**

Take a ride and cut on through
Things will reach you from this place
Barely make your senses true
Would disappear and you can traceYou don't know her name but anyway
This you can't check in, I feel the sameCan't remember much it seems
Dig my stance I couldn't sleep
Peace together everything
Broadcast funny outside inYou don't know her name but anyway
This you can't check in, I feel the sameYou don't know her name
You don't know her name
You don't know her name
