Negotiate With Love

Rachel Stevens

2, 3The other day you said, "Hello", we had a coffee
Now the next thing I know, you're playin' me
Was I just there for show 'cause I deserve to know
What ever happened to meYesterday, we were okay, why lead me on that way?
Haven't you heard of give and take?
Now you think you're in the clear, well, let me tell you, dear
Soon you'll realize your mistakeThe case is closed
I don't negotiate with love
You made your choice
I won't negotiate with loveWhat is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with loveCould you turn down
The track a little bit, please? MmmI'm thinking back in time, startin' to realize
I could've done much better than you
I turn another page to me you're just a phase
A time when I've learned a thing or twoThe case is closed
I don't negotiate with love
You made your choice
I won't negotiate with loveWhat is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with loveThe case is closed
I don't negotiate with love
You made your choice
I won't negotiate with loveWhat is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with love
