

# All Our Thoughts

## Kadavar

On the same old road, the others use to go  
And chivel I'd smoke, happy never found  
I climbed all the heights both across the sand n' sea  
They just won't see that something we believe  
Oh, we back with strings, that you know wouldn't tune  
Have you ever seen sun I've only seen the moon  
And I've still broken with the others still lie  
The vengeance turn around our secrets left behind  
All, all our thoughts are gone away  
Oh, we back with strings, that you know wouldn't tune  
Have you ever seen sun I've only seen the moon  
I question the wind and found out from the sky  
It's alright to frank cause we never really die  
All, all our thoughts are gone away  
All, all our thoughts are gone away [Solo]  
[New bass riff]
