

# Start Living in the Moment

**Jack Savoretti**

You're burning your bridges  
You're building up walls  
You can't see what you got now  
Too busy wanting it all  
The doctor gave me something  
Just let me show you how  
I know you're tired of running  
From the here and now  
Start living in the moment  
Start living in the moment with me now  
Start living in the moment  
Start living in the moment with me now  
We're looking for trouble  
If we keep asking for more  
It's a mountain we're climbing  
So high that we can't breathe anymore  
The doctor gave me something  
Just let me show you how  
I know you're tired of running  
From the here and now  
Start living in the moment  
Start living in the moment with me now  
Start living in the moment  
Start living in the moment with me now  
Something about me and you that I can't help but hold on to every night  
There's something about when I'm with you that lets' me know it's gonna be all right  
Maybe I'm crazy to think we can make it  
But I know that now is the time  
Start living in the moment  
Start living in the moment with me now  
Start living in the moment  
Start living in the moment with me now
