Life Is

Al Jarreau

Theyre sayin stick the script
But theres more to the book somehow
Yellin on the corner just a waste of time
They can never know the truth in that frame of mindCome spark the track with your gift
God bless your grits bring it on now
Cause you know theres much more to the script
Try to lift your spirits to the very tip andLife is worth much more to me
Than you could maybe never ever see
See life is worth much more to me
Than you could everThe other day I was afraid of being hypnotized
By so many people whose dreams wont begin to be realized
But I came to know the lessons they were told wasnt really so
But they kept tellin me do all the things we do and youll be good to goSee life is worth much more to me
Than you could maybe never ever see
See life is worth much more to me
Than you could maybe never ever see, yeah[Incomprehensible]You aint really drivin as long as you ridin
With those who would steal your soul
Youve been crippled to pieces so dig what they preach
And dont come with that hit no moreIm down for the cause I mean takin a pause
Really live for the time were given
Baby, cant you hear the drum?
Now listen hear it comes
It speaks of a life thats worth livingLife is worth much more to me
Than you could maybe never ever see
See life is worth much more to me
Than you could ever
