

Blood Red Sandman

Lordi

They called me the Leather Apron
They called me Smiling Jack
Then, they prayed to the heavens above
That I would never ever come back
Can you hear how the children weep?
Chills of fear, like a saw blade cutting deep
Once again there is pain
I bring flames, I bring cold
I'm the Blood Red Sandman coming home
On this unholy night, I will make you my own
Blood Red Sandman
Coming home again, I'm coming home again
Red drops stain satin so white
The way I sign my name
The neighborhood's pretty dead at night
And I'm the one to blame
Can you hear how the children weep?
Chills of fear like a saw blade cutting deep
Once again there is pain
I bring flames, I bring cold
I'm the Blood Red Sandman coming home
On this unholy night, I will make you my own
Blood Red Sandman
Coming home again, I'm coming home again
Scream all you want
You won't wake up with a scream
No-one leaves
The Monsterican Dream
Can you hear how the children weep?
Chills of fear like a saw blade cutting deep
Once again there is pain
I bring flames, I bring cold
I'm the Blood Red Sandman coming home
On this unholy night, I will make you my own
Blood Red Sandman
Coming home again, I'm coming home again
Once again there is pain
I bring flames, I bring cold
I'm the Blood Red Sandman coming home
On this unholy night, I will make you my own
Blood Red Sandman
Coming home again, I'm coming home again
