

Rated 'X'

Pat Benatar

She's a personality
Enjoying popularity for making movies rated X
Posing for a magazine
Picture in a limousine, someone simulating sex
Never thought that she could be lonely with her vanity
Wasted days and lonely nights
Working for the sugar man, make each other happy man
'Cause satisfaction's guaranteed all night
Drinking champagne is the past time, makin' hot love is the main line
Money buys love at a wild time, makin' hot love is the main line
Hot love
She wakes up and breaks up
And wonders why love is unkind
She wakes up and makes up
And looks in the mirror to find
Drink champagne and diamond drinks
Fascinating bright gloom things
Dancing at the discotheques, starlet from the silver screen
See you in a midnight dream rated X
Drinking champagne is the past time, makin' hot love is the main line
Money buys love at a wild time, makin' hot love is the main line
Drinking champagne is the past time, makin'
hot love is the main line
Money buys love at a wild time, makin' hot love is the main line
Hot love, c'mon give me hot love, satisfaction
guaranteed
