Forever

Herman Brood

Leaves come yellow and red
wintertime is here
if you need me honey
you know I'm always thereForget what used to be
make me smile
and say "stay with me
forever"Come rest your head on me
call me your man
say "stay with me
forever"Leaves come yellow and red
wintertime is here
if you need me
you know I'm always thereCome rest your head on me
call me your man
and say "stay with me
forever"Forget what used to be
and make me smile
and say "stay with me
forever"(solo)Come rest your head on me
and make me smile
say "stay with me
forever"
