Kill And Run

Sia

Watching the sequence of sounds
coming out of your mouth
but the snow is too loud
follow the hands as they move
try to make out your mood
but my brain doesn't want toI rule the dawn
silent call for you
what have I done to youkill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
a bullet through your heartinterpret the eyes as they die
should i cry should i lie
your poor lashes blow
victim of sensory love
you cry all alone
an innocent callI close the door
silent call for you
what have I done to youkill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
a bullet through your heartkill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
A bullet through your heart
