

# Kill And Run

Sia

Watching the sequence of sounds  
coming out of your mouth  
but the snow is too loud  
follow the hands as they move  
try to make out your mood  
but my brain doesn't want to I rule the dawn  
silent call for you  
what have I done to you kill and run, kill and run  
I'm one of the dirty guns  
kill and run, kill and run  
a bullet through your heart interpret the eyes as they die  
should i cry should i lie  
your poor lashes blow  
victim of sensory love  
you cry all alone  
an innocent call I close the door  
silent call for you  
what have I done to you kill and run, kill and run  
I'm one of the dirty guns  
kill and run, kill and run  
a bullet through your heart kill and run, kill and run  
I'm one of the dirty guns  
kill and run, kill and run  
A bullet through your heart
