# The bomb

## Neuroticfish

I wear my bomb near to my chest, is it ticking?
Cold, hard, no time to rest, I feel it kicking
I wear my bomb near to my chest, is it moving?
Cold, hard, no time to stop and never soothingI keep it safe and warm
I hope it never burns me
I keep it safe from harm
I hope it never hurts meI wear my bomb near to my heart when I'm running
Stone cold right from the start, I feel it humming
I lay my bomb near to my bed when I'm sleeping
Every single lonely night, I feel it creepingI keep it safe and warm
I hope it never burns me
I keep it safe from harm
I hope it never hurts meTerrorize me come and take my soul
Paralyze me, come to me whole
Terrify me, come and take my home
Analyze me, you know I'm not that strongI keep it safe from harm
I hope it never hurts me
I keep it safe and warm
I hope it never burns meTerrorize me, come and take my soul
Paralyze me, come to me whole
Terrify me, come and take my home
Analyze me, you know I'm not that strongTerrify me, analyze me
You know I'm not that strong
