Witness (Post-Hardcore.RU)

Fact

...witness, nothing judges everything
Witness, nothing judges everything
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
I dont want to lose
But everything is falling apart
Do what you say
What are you waiting for?
Stay calm, low your income
Low your income
Low your income
... Witness, nothing judges everything
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Its all the same
Its all the same
Whats the place if its not right here?
Its easy if you just say no
Its all the same
Its all the same
Whats the place if its not right here?
I want things back the way they used to be
Witness, nothing judges everything
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Witness, nothing judges everything
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Witness, nothing judges everything, but in part
Nothing judges everything, but in part
Nothing judges everything, but in part
Nothing judges everything, but in part
Nothing judges everything, but in part
Nothing judges everything, but in part
Nothing judges everything, but in part
