

Secrets and Lies

30 Rock

Transformation, we become someone else
Dislocation, as we get so far from ourselves
My condition's getting worse I can't do without
 Addiction is the lust that won't let you out
 All your secrets and your lies
 Walk fast out of burning buildings
 Kill youth with easy listening
 You gotta keep terror at a healthy distance
 It's fine from time to time
 Conversations are something of the past
 Investigations of everything that holds us back
 Your contrition is deserved, you'd like to disappear
 Find a new home for your salty tears
 All your secrets and your lies
 Walk fast out of burning buildings
 Kill youth with easy listening
 You gotta keep terror at a healthy distance
 Godspeed to sustain illusions
 It's fine from time to time
 It's fine was the land mines land mines
 Walk fast out of burning buildings
 Kill youth with easy listening
 Godspeed to sustain illusions
 Godspeed to sustain illusions
 Walk fast, walk fast
 Gotta keep terror at a healthy distance
 Godspeed
 You gotta keep terror at a healthy distance
