treasures

blek le roc

Night has found its way here
And all I can hear are memories shrill and clear
Like today man had his way
And stole what I made
He saw that I was sincere
So use me up, then throw me away
Build your careers and friendships
Quote on quote and frankly I'm ashamed
That I left my name on her lips
'Cause when it ends they'll swear it is
So I'll fall asleep and try not to think twice
About all the things that forever
Will kick me down the steps
For being too nice
'Cause everyone's searching for treasure
And they'll just dig, dig, dig until they can't get out
And die in dirty digging for treasure
But as for me, I'm giving up and I'll take my bag
And focus on my treasure forever
Yes, I know that my treasure is heaven
