

# Broken Circuit

## The Word Alive

Look into my eyes Why the fuck did you think I'd just take it?  
All the things you said to break me, I faked it!  
All I have to say  
I don't know you, and you don't know what I've been through Not enough (they always told me)  
I'm no one (I never will be)  
They were wrong (don't ever listen)  
They are wrong When everyone thinks you've had enough  
It's your turn, you can't give in  
Just remember to shout "I won't give up"  
"I won't give up" Did you think I'd just lay down and die  
My rule's an eye for an eye  
I can't believe you thought I'd listen to you  
I've made mistakes but I'm no fool Not enough, they always told me  
I'm no one, I never will be  
They were wrong, don't ever listen  
They are wrong When everyone thinks you've had enough  
It's your turn, you can't give in  
Just remember to shout "I won't give up"  
"I won't give up" I know why  
You always feel weak it's too hard to fight  
I see why  
But it's now or never take back your life It's a fight! Are you with me?  
Taking back our lives  
From the thieves who've robbed our minds  
It's a fight! I'm taking back what's rightfully mine  
It's a fight! No escape, no regrets  
I'm not giving up this time When everyone thinks you've had enough  
It's your turn, you can't give in  
Just remember to shout "I won't give up"  
"I won't give up" I know why  
You always feel weak it's too hard to fight  
I see why  
But it's now or never take back your life Take back your life!
