

Light Your World - reprise

[TJ McCloud](#)

On the night that baby Jesus came, Glory glory Angels sang
To the shepherds out taking care of sheep singing loveâ€™s arrived in a baby king
that night a star began to shine; first a twinkle and then so bright
Showing all the way to come and find the love in baby Jesus

So light your world; light the Christmas Star
Let the love of Jesus shine from where you are
Light your world to every boy and girl; let the love of Jesus light your world

The star that shines so bright that night still shines on us today
it shines from each and every heart that knows that loveâ€™s only way

So light your world light the Christmas Star
Let the love of Jesus shine from where you are
Light your world to every boy and girl let the love of Jesus light your world

So light your world light the Christmas Star
Let the love of Jesus shine from where you are
Light your world to every boy and girl let the love of Jesus light your world
