## Grand Magus

Fire will guide us on perilous seas  
Light in the black the sign that we need  
Charge through the storm  
Swords in our hands  
Leave it to fate or fear takes commandInto the fray  
We die and we slay  
Our home up above  
The hall of the braveWe are warriors - defenders of steel  
Fight through the wars, hunger and need  
Warriors - defenders of steel  
Burn our way to Odin's hall  
from all battlefields  
Bravery, loyalty bound by the oath  
Sworn to protect so far from our home  
Guarding a throne, an emperor's reign  
Honour is all to the god of the slainInto the fray  
We die and we slay  
Our home up above  
The hall of the braveWe are warriors - defenders of steel  
Fight through the wars, hunger we feed  
Warriors - defenders of steel  
Burn our way to Odin's hall  
from all battlefieldsInto the fray  
We die and we slay  
Our home up above  
The hall of the brave  
We are warriors - defenders of steel  
Fight through all wars, hunger we feed  
Warriors - defenders of steel  
Burn our way to Odin's hall  
from all battlefieldsBurn our way to Odin's hall
