

Light It Up

Chantal Claret

Light It Up Ft. Pigeon John
Im lookin fly like I should
Im about to get up to no good
got my hips got my heels
and Im feelin you.
Hellzapoppin
yeah its on
theyre about to play my favorite song
yer eyes on me
my eyes on you
ya know what to do
hes sayin that
hey little mama whats your name
the party was a drag before you came
you walked right in you shook that thang
can i get a little dat gasoline?
well hey there daddy, im your match
I came here lookin for an itch to scratch
put your hands on me honey cuz talk is cheap,
im easy to hold but hard to keep
light it up now (x6)
pull me close hold me tight
set my world on fire tonight
watch it happen turn me on
I light up like neon
Damn!
its gettin hot
take a look at what ive got
yeah you liked it
came on strong
i knew all along
hes sayin that
hey little mama whats your name
the party was a drag before you came
you walked right in you shook that thang
can i get a little dat gasoline?
well hey there daddy, im your match
I came here lookin for an itch to scratch
put your hands on me honey cuz talk is cheap,

im easy to hold but hard to keep
light it up now (x6)
light me up
and take me higher
ALL NIGHT LONG
if you want to
play with fire
ALL NIGHT LONG
hey little mama whats your name
the party was a drag before you came
you walked right in you shook that thang
can i get a little dat gasoline?
well hey there daddy, im your match
I came here lookin for an itch to scratch
put your hands on me honey cuz talk is cheap,
im easy to hold but hard to keep
light it up now
