

# Harem

**Sarah Brightman**

Burning sands, winds of desire  
Mirrored oasis reflect a burning fire  
Within my heart, unwatered, feeding the flame  
Welcoming you to my harem Sing for me a song of lifes visage  
Sing for me a tune of loves mirage Deep desires, sleep untold  
Whispers that echo the desert of my soul  
I hold your eastern promise close to my heart  
Welcoming you to my harem Sing for me a song of lifes visage  
Sing for me a tune of loves mirage
