

Justice In Murder

Coheed and Cambria

Is this the way I want to see me?
Please, leave your memories at the door
Why has the world gone off and deserted me?
Why there's just no room inside these walls? You want it all but did you want it tonight?
Or you go through in there, as you wait by the light
Oh, can you see what you've been asking of me?
With the turn of this knife, no, we'll take your life
This scene, we'll cry no, crying for mercy
Now it's time, please, pray for me There will be justice in murder
There will be justice in murder
Now you've been for me when no other could be
Well, I now grow old to forget all those
Drown all sorrow, goodbye tomorrow There is no worse than this curse you've given me
This new scene, it's ending all for naught
I wish you the best when I'm lost to eternity
Now, do what you will so it hurts no more You want it all but did you want it tonight?
Or you go through in there, as you wait by the light
Oh, can you see what you've been asking of me?
With the turn of this knife, no, we'll take your life
This scene, we'll cry no, crying for mercy
Now it's time, please, pray for me There will be justice in murder
There will be justice in murder
Now you've been for me when no other could be
Well, I now grow old to forget all those
Drown all sorrow, goodbye tomorrow There will be justice in murder
There will be justice in murder
Now you've been for me what no other could be
Well, I now grow old to forget all those
Drown all sorrow, goodbye tomorrow There will be justice in murder
There will be justice in murder
Now you've been for me what no other could be
Well, I now grow old to forget all those
Drown all sorrow, goodbye tomorrow
