

make daddy proud

blackbear

What is it with you
You never sleep alone girl
You won't listen to me
Won't listen to you home girl
You don't need a man
You say that stuff but I see right through, right through

What is it with you
Constantly fighting me and lying to me
Trying me
One of these days I'll be done
What is it with you
You haven't been the same since you got a new man
Change your hair

Started spending all of his money
Tell me how'd you get so codependent girl
All of his money
Justify you independence girl
Tell me how do you cope with it
How do you sleep with yourself at night
How do you cope with it
How do you sleep with yourself at night

Proud of you
Proud of you
Go head girl make daddy proud of you
Spending his money
Proud of you
Proud of you
Go shawty make daddy proud of you
Spending his money

Tell me what is it with you
Everything disposable
You don't listen to
Deadroses it's Trapsoul and Views now
You never come to see me no more
You never hit me back
Scared to make daddy mad

That's for sure
You never came to the crib to get your Jimmy Choo's

Started spending all his money
Tell me how you get so codependent girl
All of his money
Justify your independence girl
Tell me how do you cope with it
How do you sleep with yourself at night
How do you cope with it
How do you sleep with yourself at night

Proud of you
Proud of you
Go head girl make daddy proud of you
Spending his money
Proud of you
Proud of you
Go shawty make daddy proud of you
Spending his money
[x2]

What is it with you
You never sleep alone girl
You won't listen to me
Won't listen to you home girls
You don't need a man
You say that stuff but I see right through, right though

What is it with you
Constantly fighting me and lying to me
Trying me
One of these days I'll be done
What is ti with you
You haven't been the same since you got a new man
Change your hair
Started spending all of his money
