

# My Precious Little One

[Rick Springfield](#)

I love to watch you sleep  
In the quiet of the night  
I start to feel that you're part of me  
The strength and the light  
And I relive all the moments  
Now the moon has chased the sun  
And I memorize each moment of my precious little one  
My precious little one I love to watch you sleep  
And seeing you just be  
I feel I'm part of something so much greater than just me  
And I thought that I was living, but my life had just begun  
Now I understand the greater plan  
My precious little one  
My precious little one My precious little one I love to watch you sleep  
When the night is still aglow  
I think of my own father watching me those years ago  
And I know that I am part of him  
The rain and the sun  
And I see there's part of both of us in my precious little one But your own heart beats inside your chest  
You'll go on and find the one  
And someday you'll be watching your own precious little one My precious little one
