

Evolution Orange

Earth, Wind & Fire

Seein', seein' is believin'
It's the greatest feelin', knowin' in your heart
Trust yourself, look ahead, feel the motion growin'
Love is where it's goin', this is where our real journey starts
Down through the years, throughout the stars
Ancient the dream, future evolves
Shinin' light, now in sight, evolution Orange
Wondrous flight, now in sight, evolution Orange
Patience, healer and the giver
Patience will deliver fire from the spark
Trust yourself, reach inside, have no hesitation
Give no explanation how you know who you are
Down through the years, throughout the stars
Ancient the dream, future evolves
Shinin' light, now in sight, evolution Orange
Wondrous flight, now in sight, evolution Orange
Shinin' light, now in sight, evolution Orange
Down through the years, throughout the stars
Ancient the dream, future evolves
Shinin' light, now in sight, evolution Orange
Wondrous flight, now in sight, evolution Orange
Shinin' light, now in sight, evolution Orange
Wondrous flight, now in sight, evolution Orange
