Final Day

Pennywise

You got a problem you don't know it
Don't know how long you can suffer it
And it burns
You can feel it till the bitter endIt didn't have to be this way
You could have carried on
Another chance for you to test your freedom
Where did it go wrong?Don't know how long it's been inside you?
But you weren't feeling right
Together we could always solve your problems
But now you're out of sightHow many times did I ask you?
What's going on?
Didn't we have so many thoughts in common
Where did it go wrong?Ain't no use in denying
With each word spoken you give yourself away
Your troubles are multiplying you lying
And soon you are gonna faceYou're final day
You're final day
You're final dayDon't know when it's gonna come?
Your final dayYou didn't think that I would notice
I see it in your eyes
The tragic flaw was you forgot to back up
All your alibisYou kept it hidden deep inside you
How you were feeling then?
Did you give all of your time to someone?
Was the time well spent?Ain't no use in denying
With each word spoken you give yourself away
Your troubles are multiplying you lying
And soon you are gonna faceYou're final day
You're final day
You're final dayDon't know when it's gonna come?
Your final dayYou got a problem, you don't know it
Don't know how you could suffer it
And it burns you can feel it till the bitter endHow many times did I ask you?
What's going on?
Didn't we have so many thoughts in common
Where did it go wrong?All the changes within you
Say what you want to say
You got to try and just get through
What's in you and one day you are gone faceYou're final day

You're final day
You're final dayDon't know when it's gonna come?
Your final day
