One Step Closer

S Club Juniors

Its comin' at you baby,
its comin' at you baby,
its comin' at you baby,
its not too long
I've been waiting such a long time
just trying to get through
And It's taking all of my strength
to keep me here away from you
Its doesnt matter just how long it takes
nothin' changes when were apart
Its just a little bit longer
we've come this far...
One step closer to heaven baby means one step closer to you
They'll be no more livin' without you baby
I'm countin' each minute till I'm back to you
One step closer to heaven baby
Hold on, Hold On, Hold on to my lovin'
I've been savin' every little bit of my love for you
I've been dreamin' just to get by

It's so exciting, fantasizin'
It doesnt matter just how long it takes
just to know we'll be back together
And this time its forever...
One step closer to heaven baby means one step closer to you
They'll be no more livin' without you baby
I'm countin' each minute till I'm back to you
One step closer to heaven baby
Hold on, Hold on, Hold on to my lovin'
It doesnt matter just how long it takes
nothin' changes when we're apart
Its just a little bit longer
we've come this far...
One step closer to heaven baby means one step closer to you
They'll be no more livin' without you baby
I'm countin' each minute till I'm back to you
One step closer to heaven baby
Hold on, Hold on, Hold on to my lovin'
