

# New Baby Boom

## Black Box Recorder

New baby boom starts today  
I've got everything you need  
Baby boom, take you home  
I've been waiting so long New baby boom slipping  
Through your magic fingers  
(New baby boom)  
I'll meet a man, but you'll  
Always have your mother's eyes 1st love song for our brand new son  
1st love song  
The kid is gone, he's not my son New baby boom, and your father  
Is a famous man  
He'll be here soon, I know he loves me  
Now I've got the proof I knew the first time that I saw his face  
He'd be the one  
The kid is gone, he's not my son 1st love song for our brand new son  
1st love song  
The kid is gone, he's not my son New baby boom, congratulations  
I've got everything I need  
New baby boom starts today
