antidote

Guigoo

don't stop, turn that up, take it higher tear this mother up, start a riot don't stop, turn that up, take it higher tear this mother up, start a riot there's a glitch inside my system rushing through my whole existence got me twisted, can't resist this something's flipping all my switches take'em, breake'em, make'em feel it mix it up and mass appeal it pressure is riding me hard killer dose right to my heart and there's no antidote

and there's no antidote
and there's no antidote
there's no antidote
there's a glitch inside my system
rushing through my whole existence
got me twisted, can't resist this
something's flipping all my switches
take'em, breake'em, make'em feel it
mix it up and mass appeal it
pressure is riding me hard
killer dose right to my heart
and there's no antidote
and there's no antidote
and there's no antidote
