

# Moving On

James

Please, don't get me started  
Looking backwards, to move on.  
Strong, yet openhearted  
Accept leaving, when leaving's come.  
God, didn't see it coming.  
Never said I love you, I hope you knew.  
Now my bags are packed,  
And my sails are tight,  
And my course is marked by stars.  
When this cycle ends,  
Will we start again,  
Will we recognize old friend? I'm on my way  
Soon be moving on my way.  
Leave a little light on.  
Leave a little light on.  
I'm on my way,  
Soon be moving on my way.  
Leave a little light on.  
Leave a little light on. Time, always unwinding,  
All these deadlines in my mind.  
Seeds and dreams we planted,  
Took for granted, didn't root.  
Walking down this road,  
When my pulse beat slow,  
Hope to have you close at hand.  
When this cycle ends,  
Will we start again,  
Will we recognize old friend? I'm on my way,  
Soon be moving on my way.  
Leave a little light on  
Leave a little light on.  
I'm on my way  
On my way  
On my way  
On my way  
Leave a little light on  
Leave a light on  
I'm on my way,  
Soon be moving on my way.

Leave a little light on  
Leave a little light on.  
I'm on my way  
Soon be moving on my way  
Leave a little light on  
Leave a little light on,  
Leave a little light on.
