

# You Say Jump

## Cheap Trick

You say, "Jump", I said, "How high?"  
You say, "No, I don't ask why"  
You treat me like a fool, like you do Kick me when I'm down and out  
Out with you, I wish I was  
Instead I'm sitting all alone tonight, well You've got a one track mind  
Wish you could just read mine  
I hope you will in time You say, "Jump", I said, "How high?"  
Love you but I don't know why  
Don't say no, not tonight You call me or I'll call you  
Just as long as we get through  
I'll do anything for you tonight All dressed up no place to go  
I say, "Yes", and you say, "No"  
What's going on? I really want to know You've got a one track mind  
Wish you could just read mine  
I know you will in time You say, "Jump", I said, "How high?"  
Love you but I don't know why  
Don't say no, not tonight You call me or I'll call you  
Just as long as we get through  
I'll do anything for you tonight I've loved you from the start  
You only broke my heart  
I think I'm losing my mind I've felt this way for years  
I'm the one who really cares  
Don't leave me here on my own You say, "Jump", I said, "How high?"  
Love you but I don't know why  
Don't say no, not tonight I've loved you from the start  
You only broke my heart  
I'm sitting all alone tonight Kick me when I'm down and out  
Out with you I wish I was  
Instead I'm sitting here on my own You've got a one track mind  
Wish you could just read mine  
I hope you will in time You say, "Jump", I said, "How high?"  
Love you but I don't know why  
Don't say no, not tonight
