The Man That I Am

James Otto

Where do you go when no one?s watching only you can see?
I want to know how hot is that fire you burn for me
?Cause all my life girl I?ve been waiting on a love that strong
And maybe this one ain?t it and I can tell it won?t take long
Not as long as I?m the man that I am
Light off shades down candles painting shadows on the wall
Ain?t too hard to understand
What it does every taste every touch going deeper
Awe and it?s a feelin? that I can?t describe
I know you wouldn?t understand unless you were the man that I am
I want to see all those secrets down there where you hide
I want to be the only man that goes that deep inside
?Cause all my life girl I?ve been waitin? on a love that strong
And baby this one is it I can tell it won?t take long
Not as long as I?m the man that I am
Light off shades down candles painting shadows on the wall
Ain?t too hard to understand
What it does every taste every touch going deeper
Awe and it?s a feelin? that I can?t describe
I know you wouldn?t understand unless you were the man that I am
Not as long as I?m the man that I am
Light off shades down candles painting shadows on the wall
Ain?t too hard to understand
What it does every taste every touch going deeper
Awe and it?s a feelin? that I can?t describe
Not as long as I?m the man that I am
Light off shades down candles painting shadows on the wall
Ain?t too hard to understand
What it does every taste every touch going deeper
Awe and it?s a feelin? that I can?t describe
I know you wouldn?t understand unless you were the man that I am
Let me touch you one more time
Let me taste what?s on your mind
Let me be right here beside you
When you wake up baby
I want to be the only man to touch you
I want to be the only man that pleases you
And teases you and takes you higher than you?ve ever been
Longer than you?ve ever seen stronger than you?ve ever seen
