

I'm About to Come Alive

David Nail

I can hear you downstairs crying on the phone
Telling someone that Im here but you still feel all alone
Maybe we were too young, goodbye, I gotta go
I can hear the baby waking up, gotta get back to the life I know I should've never believed him
Maybe I should just leave him Maybe Im not but youre all I've got left to believe in
Dont give up on me Im about to come alive
I know that its been hard and its been a long time coming
Dont give up on me Im about to come alive No one thought I was good enough for you, except for you
Dont let them be right after all that weve been through
Cause somewhere over that rainbow
Theres a place for me, a place with you Maybe Im not but youre all I've got left to believe in
Dont give up on me Im about to come alive
I know that its been hard and its been a long time coming
Dont give up on me Im about to come alive In every frame upon our wall lies a face thats seen it all
Through ups and downs and then more downs
We've helped each other off of the ground
No one knows what weve been through
Making it aint making it without you Maybe Im not but youre all I've got left to believe in
Dont give up on me Im about to come alive
I know that its been hard and its been a long time coming
Dont give up on me Im about to come alive
Im about to come alive, Im about to come alive
