Times Like These

Mila J

Let me take a minute to explain to you
All this time you've been in my corner like a trainer
Now you down, think it's time that I return a favor
As long as we got each other, what's there to be afraid of, yeah'Cause I'ma fight witcha no matter what
And if the car ran out of gas break out the chucks
Then we can walk it out, walk it out
Real bitches know what I'm talk' aboutAnd I will never leave you, in times like these
Is when you need the most love, in times like these
And I will be your shoulder, in times like these
I do what I gotta do, in times like these
Times like these, in times like these
When you need the most love, in times like these
And I will be your shoulder, in times like these
And I'll do what I gotta do, in times like these
In times like these, in times like theseWhen I say what I tell ya, you know I really mean it
Ain't nothin' or nobody ever gonna come between us
Yeah, 'cause you're my nigga
Finger on the trigger
And if some shit's about to go down
You know I'm goin' out witcha'Cause I'ma ride witcha no matter what
And if the car ran out of gas break out the chucks
Then we can walk it out, walk it out
Real bitches know what I talk' aboutAnd I will never leave you, in times like these
That's when you need the most love, in times like these
Ooh I will be your shoulder, in times like these
I do what I gotta do, in times like these
In times like these, in times like these
When you need the most love, in times like these
Like Kobe and Vanessa, in times like these
I'm gonna do what I gotta do, in times like these
Ooh, in times like theseSaid I'm in it for the long haul (for the long haul)
If you fall, I fall, then we both fall (we both fall)
But if you ball, I ball, then we both ball (we both ball)Did you hear what I said to you
Said I'm in it for the long haul (for the long haul)
If you fall, I fall, then we both fall (we both fall)
But if you ball, I ball, then we both ball (we both ball)
Oh whoaAnd I will never leave you, in times like these
When you need most love, in times like these
Oh I will be your shoulder, in times like these

I will do what I gotta do, in times like these
Times like these, in times like these
When you need the most in times like these
Oh I will be your shoulder, in times like these
I will do what I gotta do, I'm gonna do it in times like these ooh
In times like theseIn times like these
In times like these
In times like theseIn times like these
In times like these
In times like these
In times like these
In times like these
