

# Starlight Lounge

**Billy Bob Thornton**

Baby, yeah, would you meet me at the starlight lounge?  
Where I found you and you found me  
We were both dressed up with no place to be You set me from my reasons for the span of our drink  
For as long I think as it took for us to sink  
In our garden of sleaze You felt me up and you stroked me from the inside out  
Till we just about, yeah  
We just about were sleazed out You leaned on me and I leaned on you  
Yeah, we pushed real hard to twist the truth  
Whispered love through a hot red smoke in a dirty booth You gave me so many reasons, yeah, you let me down  
And I started to think 'bout our last drink  
As I watched us drown in our garden of sleaze Baby, would you meet me at the starlight lounge?  
Where I lost you and you lost me at the starlight lounge
