

All The Voices

Inxs

Deep down in my heart
There is a lot of words
Tears fall down my face
But I hear the many voices that cry in vain I want to tell you
Don't give it up, no no
Wanna tell you
Don't give it up, give it up now
Don't give it up, give it up now Hear the voices
Wraps around you
All the people
Never doubt it Hear the voices
Take a look at what's around you
All the people
We can change things, never doubt it We want a new start
Is it just too much to ask?
What does it take?
'Cause I hear a million people singing the same I wanna tell you
Don't give it up, no
I wanna tell you
Don't give it up
Don't give it up, no Hear the voices
Wraps around you
All the people
Never doubt it Hear the voices
Take a look at what's around you
All the people
We can change it, we can change it Hear the voices all the people
Hear the voices all the people
Hear the voices all the people
