

# Say No More

[Mooryc](#)

Say no more  
I can feel you whenever you're near  
Say no more  
I will know all you want me to hear  
I am writing with you, of you, love you  
Say no more  
I am lost in a river of words  
Say no more  
Let this feeling be all that is heard  
I am by you, with you, of you, love you  
Say no more
