

Krazy Krush

Ms. Dynamite

Long time I've been waitin' to get next to you
Long time I've been anticipatin' the things that I wanna do
 Long time I've been feenin' just for one kiss
Long time I've been dreamin' 'bout feelin' your tenderness
 Sometimes I wanna grab you and just dance slow
 Sometimes I really feel the urge to let you know
 The feelings I have if you how deep they go
I gotta krazy krush on you but can't seem to let it show
 If you knew the heat I feel when our eyes meet
 So hot, so deep that it gets my knees weak
 So sweet, but the heat's got my heart skippin' beats
 Can't hide though I'm tryin' to be discreet
You got me feelin' somethin', my blood just won't stop rushin'
 You got a sister blusin', ooh dis krazy krush and
 You got me day dreamin', you got a sister feenin'
 You got me thinkin' 'bout every word you ever said
 This krazy krush, it keeps foolin' up my head
 Long time, it's all just been buildin' up inside of me
 Long time I just wanted to touch but I just let it be
 Long time is searchin' for the words, they just don't come
 Long time I've been so certain that you the one
 Sometimes I wanna grab you and just dance slow
 Sometimes I really feel the urge to let you know
 The feelings I have if you how deep they go

I gotta krazy krush on you but can't seem to let it show
You come like sunshine, the way you make my heart melt
 You give me flutterin' butterflies I never felt
 You get me nervous, I can't keep my calm
Sweatin' at the palms, temperature rise, hypnotised by your charm
You got me feelin' somethin', my blood just won't stop rushin'
 You got a sister blusin', ooh dis krazy krush and
 You got me day dreamin', you got a sister feenin'
 You got me thinkin' 'bout every word you ever said
 This krazy krush, it keeps foolin' up my head
 Now here we are all alone
 Now we got on our own
 And my emotions are running wild
 Really wanna let loose but it just ain't my style

Still I gotta show you, make you know you
Touch my soul you, got me outta control, you
I just wanna hold you
Taste your lips and get close to you
You got me feelin' somethin', my blood just won't stop rushin'
You got a sister blushin', ooh dis krazy krush and
You got me day dreamin', you got a sister feenin'
You got me thinkin' 'bout every word you ever said
This krazy krush, it keeps foolin' up my head
