

Right Now

Bun-b

Right now let me take you by the hand
Right now put your lips at my command
Right now fly me off to lover's land
Baby, don't you leave me at the post
Kiss me, you can feel it coast to coast
Right now baby, need your love the most
You have set my soul on fire
Only you can satisfy this great desire
Right now let the fool world break in two
Right now stars can tumble from the blue
Right now just as long as I'm with you
Right now it's the time and it's the place
Right now for a ride to outer space
Right now let me have that wild embrace
You have set my soul on fire
Only you can satisfy this great desire
One time let the wine of love flow free
Right now be the lover you can be
Right now come and give yourself to me
