

# The Moon Nazis Are Coming

[Laibach](#)

Hey  
The moon Nazis are coming  
What's wrong with you people, can't you see?  
Look, I've been there, I'm telling you  
They've got this whole moon base  
And they've got this whole, like, space thing going on  
And they're coming to take over  
Come on people, help me  
Help me  
I saved your life
