

Playtime (feat. Khalil)

[Justin Bieber](#)

Playtime is over, over (say what)
I got no time to play no games with you
(x2)No more playing games
No more arguing, asking me why
Such a waste of time
There's no need to fight (there's no need to fight)
I want to spend that time laughing out loud
Cause there ain't really no time for arguing no[Khalil & Justin Bieber]
Playtime is over, over
I got no time to play no games with you
I got no time to play no games with you
Playtime is over, over, over
I got no time to play no games with youHard to move on
So don't push me away, to get to my heart
Don't play no games (don't play no games)
I got no time to play no games with you[Khalil]
I won't say no names, I won't say no names
But you're playing games
See lately baby girl it just ain't been the same (oh nah)
Just saying what's on my mind
I hope you feel my pain
Well girl I guess it's just a part of love
But I hope you know that you're the one I'm dreaming of[Justin Bieber]
Playtime is over, over
I got no time to play no games with you
(x2)Hard to move on
So don't push me away to get to my heart
Don't play no games
Playtime is over, over
I got no time to play no games with you, with you
