Exposed

Creative Adult

24 more hours alone
24 more hours alone
take it quick / keep it on the low
think about it 'til my head explodes
rumour has it that you're going down
and you know this is a talking town
and they're never gonna keep it shut
yeah you know they're gonna chew you up
over & under
can't hold it together
Think about it 'til my head explodes
think about it 'til I am exposed
