

Sooner Or Later

Breaking Benjamin

I want a normal life
Just like a newborn child
I am a lover-hater
I am an instigator
You are an oversight
Don't try to compromise
I learn to love to hate it
I am not integrated Just call my name
You'll be okay
Your scream is burning through my veins Sooner or later
You're gonna hate it
Go ahead and throw your life away
Driving me under
Leaving me out there
Go ahead and throw your life away You're like an infantile
I knew it all the while
You sit and try to play me
Just like you see on TV
I am an oversight
Just like a parasite
Why am I so pathetic
I know you won't forget it Just call my name
You'll be okay
Your scream is burning through my veins Sooner or later
You're gonna hate it
Go ahead and throw my life away
Driving me under
Leaving me out there
Go ahead and throw my life away Sooner or later
You're gonna hate it
Go ahead and throw our life away
Driving me under
Leaving me out there
Go ahead and throw our life away Throw our life away
Throw our life away
