

# Right to Bear

## Madison Rising

Late one night as I came home  
And saw the front door broken in  
I grabbed my piece and went inside  
To see who lurks within  
There we stood face to face  
My gun, the thief, and I  
Man you should have seen him run  
When I cocked that .45  
Disarmed our rights will disappear  
We won't let it happen here  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms  
The government makes the gun laws  
So they can take our right to own  
Every citizen un-armed  
Is a citizen they control  
All they see are weapons  
It's the only thing they know  
Disarm the voting country-men  
And society will fall  
You'll never take our guns away  
In return for tyranny  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms  
The people have spoken  
We won't let it happen  
We won't let it happen here  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms  
It's one of my rights as a free man  
To protect my home when needed  
I demand my right to bear arms
