My Telly's Gone Bung

Crowded House

My telly's gone bung
What am I to do about the A B C tonight?
My telly's gone bung
What am I to do about my predicament?
My telly's gone bung
I plugged it it in and it turned me off again
I've waited up for you
To come alive and bring some truth back to me, yeah
'Cos I'm where I wanna be
In front of my TV
My telly's gone bung
What am I to do about Kylie & Jason now?
My telly's gone bung
I don't really care for their predicament
I've waited up for you
To come alive and bring some truth back to me, yeah

'Cos I'm where I wanna be
In front of my TV
If it was up to me
I'd let these people see
What people do
I've been watching you too
I've waited up for you
To come alive and bring some truth back to me, yeah
'Cos I'm where I wanna be
In front of my TV
If it was up to me, I would let these lovely people see
If it was up to me, if it was up to me
If it was up to me, if it was up to me
If it was up to me
