Still Beats Your Name

Killswitch Engage

Who knows how long I've been lost in the dark?
Followed closely by the footsteps of my failures
What can I do to alter my perception
Of the way and the truth?
Let this burden drift away
Who knows how long the void has swallowed me?
I only wish for nothing more than peace to find me
How can this be? We've come so far
To let the weight destroy our grand design
Let this burden drift away
My pledge remains faithful to you
And my heart still beats your name
Drowning once again
Will I live another day?
To reach the surface
Let this burden drift away
Drowning once again
Will I live another day?
To reach the surface
Let this burden drift away

Drowning
Choking
Fading
Life
Is this the moment
Where I leave the blackness?
Is this the moment
Of my rebirth?
Who knows how long I've been lost in the dark?
Followed closely by the footsteps of my failures
What can I do to alter my perception
Of the way and truth?
Drowning once again
Will I live another day?
To reach the surface
Let this burden drift away
Drowning again
Reach the surface

Let it drift away
